LED Lighted Plastic/SST Beverage Holder

The LED Lighted Plastic/SST Beverage Holder is a new twist on a trusted favorite. RDI was the first to develop and provide lighted beverage holders for the consumer market. Made from ABS with a stainless steel trim, our design provides a quality, low-cost option for the boater.

Features and benefits:

- Looks good day and night
- Quality at low cost
- Easy to install and connect to the boat's electrical system
- Lightweight
- Durable
- Waterproof
- Black UV-infused pad for sound deadening

RDI, Inc. supplies high-quality, first-of-their-kind products for consumers who demand a higher standard of innovation. Specializing in marine, arborist and ladder hardware, RDI is an independent agent, designing, producing and prototyping innovative and customized products to meet the needs of individual builders.
